WATER AND SEWER FUND (505)
SUMMARY**

A new rate structure passed by the City Council effective June 2011 helped increase water and sewer revenues for Fiscal Year 2012. Although the projected Fiscal Year 2012 total revenues were still short of budget figures, a conservative use of operating funds as well as limited expenses on capital improvements helped maintain a projected positive variance with the Fiscal Year 2012 Budget. For Fiscal Year 2013 a few capital improvements and upgrades are being budgeted to help mitigate some issues with aging infrastructure.

Although the need for an additional rate hike has been made in order to facilitate the improvements of current infrastructure, a rate increase has not been implemented with the current budget proposal. Future rate increases may need to be considered as a result of the City's need for additional capital improvements.
